

Maria Caamano

Front-End Developer

Paris, France maria.caamano.traduccion@gmail.com linkedin.com/in/maria-caamaño-gonzález-720b8368
github.com/mariacaamanotraduccion-wq

PROFESSIONAL SUMMARY

Passionate and detail-oriented Junior Front-End Developer based in France with a background in translations and payments API integration. Proficient in building responsive, accessible, and user-friendly web applications using HTML5, CSS3, Bootstrap 5, and JavaScript.

TECHNICAL SKILLS

Languages & Frameworks:

HTML5

CSS3

JavaScript (ES6+)

Bootstrap 5

Tools & Methodologies:

Git & GitHub

REST & AI APIs

Responsive Design

Web Accessibility

FEATURED PORTFOLIO PROJECTS

Low-FODMAP Recipe App

SheCodes Workshop

HTML5, CSS3, JavaScript, AI API Integration

- Engineered an AI-powered culinary application that generates personalized low-FODMAP recipes based on remaining pantry ingredients.
- Integrated asynchronous API calls to deliver real-time custom recipe prompts and structured responses.

Interactive Weather Application

SheCodes Workshop

HTML5, CSS3, JavaScript, Weather API

- Developed a real-time weather tracking application providing live temperature, forecast data, and metrics for worldwide locations.
- Utilized JavaScript DOM manipulation and live weather API consumption for seamless dynamic UI updates.

Crochet Hobby App

SheCodes Workshop

HTML5, CSS3, JavaScript

- Designed and implemented an interactive web application featuring custom dark-mode toggling and responsive UI elements.
